KRISHGEN BioSystems
OUR REAGENTS, YOUR RESEARCH

Human Blood Products & Biospecimens

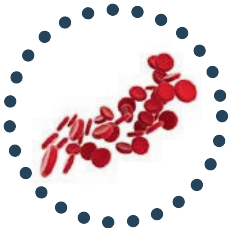

Collecting, processing & delivering human blood products that meet your project needs

Frozen Blood Products

Frozen Human Whole Blood

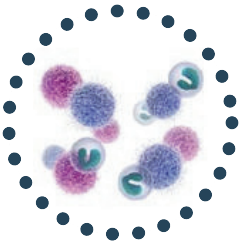

- Tested for viruses prior to release with full blood count provided (Certificate of Analysis)
- Fully consented for biomedical research including genetic analysis
- Blood bags (CPD) or vacuum collection tubes (wide choice of anticoagulant)

Frozen Human Red Blood Cells

- Single donor or pooled options
- Source blood collected in blood bags & vacuum collection tubes, with leuko-depleted format also available

Frozen Human PBMCs

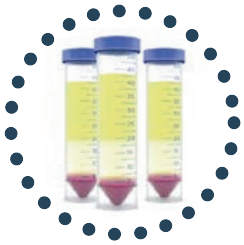

Frozen Human Plasma

Frozen Human Serum

Frozen Human Buffy Coat

What Research Donors can offer

Right donor, Right sample, Right time

- Large and diverse donor pool
- Donor recall available
- Meeting customer's exact requirements: donor, biospecimen and protocol
- Selection of donor specifications: age, sex, ethnicity, blood group, HLA type, etc
- Choice of anticoagulant, bags and vacutainer tubes, volume
- Serology screening prior to dispatch
- Chilled or ambient delivery temperature
- Delivery on the next day after collection
- Collection in UK, HTA-licensed, ISO 9001 2015 certified
- Ethics approval and donor consent

(genetic analysis & commercial research purposes)

Why work with us instead of collecting samples in-house?

- Expertise and specialization
- Regulatory compliance
- Cost savings
- Scalability
- Focus on core competencies
- Mitigation of risk
- Access to diverse donor pools
- Time efficiency
- Reducing administrative burden

Advantages of Using Frozen Biospecimens:

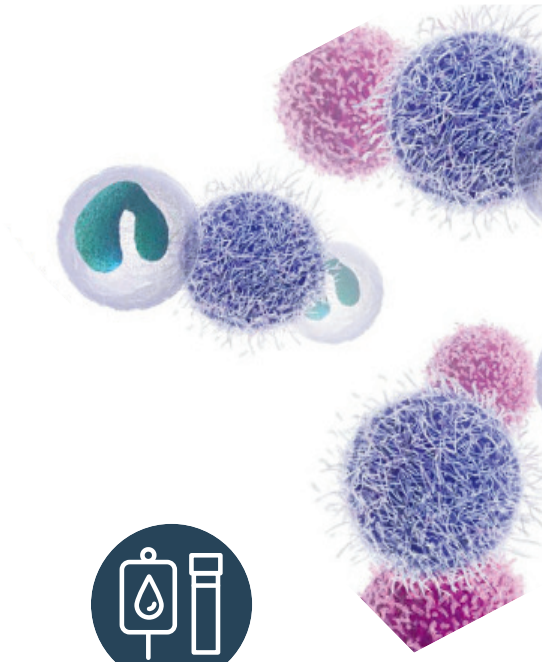

- Long-term storage
- Sample preservation
- Flexible usage
- Diverse applications
- Biobanking

Research Donors is exclusively available in India via Krishgen Biosystems.

KRISHGEN BioSystems
OUR REAGENTS, YOUR RESEARCH

Frozen stock human PBMCs

High viability cells processed & stored within 5 hours of blood collection. Delivered frozen across worldwide.

Search our stock PBMC samples in real time

Select & reserve the samples that meet your research requirements

Choice of anticoagulants, format, volume, donor age, sex, ethnicity, blood group & HLA-type

Samples consented for genetic, animal model & commercial research

High post-thaw viability & minimal degradation

Comprehensive donor information provided

WHY WORK WITH KRISHGEN FOR BIOSPECIMENS?

- 23 years of Expertise importing cold chain reagents into India
- Competitive Pricing and in stock availability of normal state bio-fluids
- Expertise in managing documentation from regulatory point of view for end use
- Bulk and Custom Bio-fluids Available

Research Donors is exclusively available in India via Krishgen Biosystems.
