

Veterinary ELISA

Comprehensive portfolio of ELISA for antibody detection kits as well as hormone / endocrine marker ELISA in swine, cattle, poultry, sheep, and others

- **High Sensitivity & Specificity** – detect antibodies with confidence
- **Rapid Turnaround** – results in 1–2 hours
- **Wide Coverage** – swine, bovine, ovine, avian diseases
- **Validated Protocols** – reproducible, easy-to-follow workflows
- **Reliable Screening** – ideal for large-scale herd/flock monitoring

Veterinary ELISA Kit Portfolio

Trusted ELISA solutions for routine surveillance and global disease control.

Swine Kits

African Swine Fever (ASF) Blocking Antibody ELISA
Classical Swine Fever Virus ELISA & Blocking ELISA
PRRSV (GP5) Antibody ELISA
PRRSV Universal Antibody ELISA
PCV2 Antibody ELISA
PEDV (IgA & IgG) Antibody ELISA
PRV gB Blocking / gB / gE Antibody ELISAs
Porcine Parvovirus Antibody ELISA
Porcine JEV Antibody ELISA
Porcine TGEV Antibody ELISA
Porcine Toxoplasma Antibody ELISA
Swine Influenza Virus Antibody ELISA

Bovine & Ovine Kits

Bovine Brucella Antibody ELISA
Sheep Brucella Antibody ELISA
FMDV Type O Competitive Antibody ELISA
FMDV Type A Antibody ELISA
FMDV Type O Antibody ELISA
FMDV Non-Structural Protein 3ABC Blocking ELISA
PPRV Antibody ELISA

Avian Kits

Avian Influenza H5 Antibody ELISA
Avian Influenza H7 Competitive Antibody ELISA
Avian Influenza Universal Antibody ELISA
Newcastle Disease Virus Antibody ELISA

Hormone & Endocrine Kits

Cortisol ELISA Kit
Progesterone ELISA Kit
Testosterone ELISA Kit
Estradiol ELISA Kit
Prolactin ELISA Kit

Why Choose Kinetic Kits?

Validated with international reference standards

Designed for routine veterinary diagnostic labs

Suitable for surveillance, vaccination monitoring, and trade compliance
